play With me

OUR ROOTS

Ludattics has developed at the heart of the Educational Group, an Italian company that is specialised in the creation of books for children, play books and high-quality educational games. Our roots are firmly anchored to Professor **Giuseppe Lisciani**, a highly experienced educationalist in the field of research and training in child learning strategies.

EDUCATIONAL VOCATION

Learning and the improvement of an individual's skills through recreational activities are the basis of the *Ludattica* project. The firm belief that learning is a game, is a way of life that fills our thoughts and our hearts.

INSPIRING PEOPLE

Alessandra Lisciani's intuition and experience continues to give continuity to the foundations of the business. Her team looks after the design, the choice of materials and the realisation of Ludattica products. The principle, which provides daily inspiration, comes from the awareness that our products have a fundamental role in determining the future of our children, their curiosity and their desire for discovery.

play With me

PLAY WITH ME

Our games talk: they have been planned and designed to communicate with children and let them experience creative and unique recreational activities that are always different but always satisfying. At the same time the games encourage children to share the experience with others. "Play with me!" becomes and invitation for a friend, a parent, a grandparent and so on.

GREEN QUALITY

For us, quality means working on details: the choice of materials, attention to the contents, elegant illustrations, and great care for the overall product. Our games respect nature because they are made with eco-friendly and non-toxic components.

GREEN LIKE LUDATTICA

At Ludattica, our passion for games born out of simple, natural materials joins with the research into technical, ingenious and innovative solutions to create sustainable alternatives to plastic materials. As for example the refined and precious containers in our games, that allow us to avoid using plastic bags.

Playing with paper and cardboard

Creating, building, handling, transforming, inventing, growing. There is a whole world of paper and cardboard to discover! This is the guiding principle behind all our games made from eco-friendly, low environmental impact materials.

Components of natural origin

We choose our components with care: we want them all to be natural, eco-friendly, non-toxic, and biodegradable. Some examples? 100% gluten free, vegetable origin modelling clay, dermatologically tested finger paints, non-toxic, washable ink pens, containers and accessories made from bamboo fibres and sugar canes that are compostable.

Design sustainability, made in Italy

For us, being eco-friendly means making responsible design choices, which start with the planning phase of sustainable alternatives and follows the entire life cycle of our products. We don't like the idea of "throwaway" goods, and it is for this reason that our boxes are sturdy, and often are an integral part of the game itself. They last long, and can be used for a thousand other things!

The advantages of a short supply chain

Manufacturing in Italy means that our company benefits from a short supply chain. We are able to check production processes and to manage packaging and transport processes carefully and responsibly. All of this with sustainability in mind.

Manual Manual

Give shape to the planet Earth and make it spin in space – this is just

the beginning of a game that accompanies children as they discover

the rotation of our planet and the phases of the day. A universe to decorate with felt tip pens and coloured stickers, as well as the

cards to match day and night and a real torch to use like the sun! The manual is full of fun facts and activities to make this game a real

educational experience. Created in collaboration with EXPLORA - ROME CHILDREN'S MUSEUM, it was studied following the STEAM

> Illustrations by Giulia Maidecchi and Valentina Bandera

A new line games, of Ludattica games, of Ludattica games, designed for little onal games, specially from 2 years of age. from 2 years of age games, spany puzzles, educational games, spany and creative games, since and creative in the basic since designed to the basic since designed in the passion of their growth, since their growth, since and their growth, since of their growth, since their growth, since and their growth.

A fun collage activity created especially for younger children: the child decorates the 8 animals by balling up tissue paper and sticking the colourful balls onto the images, without using glue. Simply moisten the paper with the supplied sponge and the balls will magically stick to the illustrations. An original toy kit that stimulates motor learning and creativity!

## 22433 DE PASEO CON EL GRÙFALO

A three-dimensional game, in which the aim is to find the story-building tokens within the wood, accompanied by the Gruffalo and the other woodland animals.

## 22334 CREA Y DECORA CON PLASTILINA

A creative kit that encourages children to experiment with modelling clay for the first time in an effective way, discovering its original decorative use. Children can decorate the pictures by pressing down on the image with pieces of modelling clay in the shape of a ball, a cushion or a snake. The game trains fine motor skills and the first concepts of three-dimensionality as well as encouraging creativity in little children.

Instructions

## 22440 CUADRITOS CUENTACUENTOS

A box containing 28 squares made up of 3 puzzle pieces. Once you have put together the image, you will be able to read a short text and find out who the Gruffalo is. This game has been specially designed to develop observation skills, enrich vocabulary and strengthen adult-child relationships through reading.

## MATCHING GAMES

Lots of mini puzzles to play at matching the characters with their silhouette or footprint.

Thanks to the self-correcting match ups, children will work out for themselves when they make a mistake. This game has been specially designed to develop observation and logic association skills in young children.
